# VICTOR JENNINGS "CALIFORNIA GRIEZMANN"

**AGE:** 13  
**WEIGHT:** 112  
**HEIGHT:** 5 FT  
**POSITION:** CM/C10

## BASIS + HABITS

**Headers:** 100%  
**Chest:** 100%  
**Thighs:** 100%  
**Inside foot:** 97%  
**Juggle:** 100%  
**Rhythm - Inside:** 100%  
**Rhythm - Outside:** 100%  
**Usain's:** 100%  
**Defensive:** 100%  
**Combine (+Stretch):** 100%  
This summer meeting Victor was a great experience. Normally, training requires moments and the main one is to know the fundamentals, in these Victor has great abilities, Mr. Griezmann always requires practicing them, never leaving them aside.

## CONTROL. SPEED

**Group round (Hd/Ins):** 100%  
**Group round (Chs/Ins):** 100%  
**Dribbling Up (L/R). Time:** 100%  
**Rolling in (L/R):** 100%  
**Rolling out (L/R):** 100%  
**Addressed control:** 90%  
**Combine rolling:** 100%  
**Cones:** 100%  
**Cones (LtR):** 100%  
**Rest/acceleration:** 94%  
I look forward to how Mr. California Griezmann will perform after these difficult times. His control and speed are very good and now his challenge will be knowing how to dose them and use them properly when he has a game.

## SPEED. WB. STRENGTH

**Inside:** 97%  
**Outside:** 96%  
**Combine:** 98%  
**Turn:** 88%  
**Stop-n-go. Free wP:** 96%  
**Dribbling up outside (L/R):** 98%  
**Dribbling up inside (L/R):** 95%  
**Explosion (L/R):** 100%  
**Attack-n-cut:** 100%  
**Dice 5 - Explosion (30):** 95%  
**Circuit 5 X 5:** 93%  
Ball speed and the use of the strength are skills that V performs appropriately, but the use and practice will make his performance constant if he continues with that practice rhythm.

## ENDURANCE. AGILITY/ PERIODIZATION (FR).

**Stop/pB:** 91%  
**Rebels exit:** 90%  
**Strike : turn (in/out):** 91%  
**Attack the bounce:** 93%  
**Hold-n-go (wtO.B):** 91%  
**Wall/Shoot:** 90%  
**Wall/Reaction:** 91%  
**Turn-n-advance:** 93%  
His endurance and agility are very good, Griezmann has a highly developed athletic memory. Periodization is a technical concept that suggests adapting contexts and controlling them, it is a skill that he will handle if he remains constant.

## TEMPORIZATION + VISION (BTTS)

**Stop, back, backward-go:** 93%  
**Adriano (Stop/Hold-n-go):** 90%  
**Unmarked (L/R seek space). Stk:** 98%  
**Catenaccio (Hold back + support)tm:** 91%  
**Wall (Assist):** 95%  
**Wall/Counter (Assist):** 100%  
**Play between the lines:** 94%  
**Reception from turn:** 96%  
**Hold-n-go (Dribbling):** 93%  
Temporization is a concept that allows planning from the defense and there is no great attack without knowing how to control the game, the part that nobody wants to do. This is new for V, his performance is appropriate but without a doubt, the difference makes him known and used this concept particularly for his ability to see the game. Vision is achieved between timing and patience.

## AWARENESS + POSITIONING

**Short/Possession:** 91%  
**Deep gap:** 90%  
**Back/Counter:** 90%  
**Receive from back /turn-space gap:** 93%  
**Unmarked and round:** 94%  
**Att+Turn: Shoot (Grd):** 88%  
**Awareness and control:** 91%  
**Reset/Ask:** 93%  
**Hold and (dribbling up/down):** 98%  
**Xavi:Turn/Change (L/R):** 100%  
**Habit: Faked position:** 100%  
**Awareness from assistance:** 92%  
Mr. California Griezmann is always attentive, his awareness and positioning are good but they can be much better. Go v! The ball is our friend, we use it, the rest runs after it...

## FOOTWORK. CROSSING. HOLDING

**Weight on:** 97%  
**Hula-go:** 95%  
**Roll it: In (out):** 97%  
**Pogba + Cruyft (Pogba+taco: L/R):** 98%  
**Maradona (180 Spin):** 97%  
**Horizontal open band (L/R):** 88%  
**Vertical open band (L/R); Bw-Fw:** 88%  
**Receive from back & pass:** 92%  
Victor has good footwork, his hit is good (and he can always be better!) Therefore his crossing has power but he must work on location. Also Mr. California Griezmann, using the holding is much more efficient when you use it, so... use it!

## 1 V 1 (DISPUTING). FINISHING

**Quick decision making:** 92%  
**Quick turns:** 88%  
**Patience:** 98%  
**Cut + shoot:** 96%  
**Close shoot:** 91%  
**Closing angle:** 100%  
A good midfielder is complete, and that is what California Griezmann has worked for. Defensive solidity, and know how to finish the plays. V has good shots and now, the idea is that he improves in making decisions to make them inside the zone or outside of it.

## IQ

**Vision:** 100%  
V has a great vision of the game. He looks around. Looks like he would have a great condition to manage the rhythm of the game.

## VALUES

**Readiness:** 100%  
I found a multitasking kid with good conditions for the midfield. He is always respectful, honest, and he has potential to help in other roles to contribute to any team, and to enjoy the game, that is certainly readiness. Can California Griezmann do more? Definitely!
